Muhammad Azaam Ali

APPLIED COMPUTER SCIENCE STUDENT · AI & FULL-STACK DEVELOPER

INTERNSHIP

Available full-time, on site
1 March – 28 May 2027 (13 weeks)
Lives in Geel · Regular student

TECHNICAL SKILLS

AI & Machine Learning

LLM integration, prompt engineering, agentic AI & AI coding agents, neural networks (CNN), computer vision, data preprocessing

Programming

Python, PHP, Java, SQL, HTML, CSS

Frameworks & Web

Laravel, Tailwind CSS, REST APIs, JSON, front-end & back-end development

Data

Relational databases, data cleaning & structuring

Tools

Git & GitHub, Figma (UI/UX), VS Code, ChatGPT, Claude, Copilot

AWARDS & CERTIFICATES

Hackathon Winner · 2025

Python Programming Certificate

LANGUAGES

English	Fluent
Urdu	Native
Punjabi	Native
Dutch	A1 · learning

SOFT SKILLS

Attention to detail

Teamwork

Active listening

Problem-solving

Multitasking

Adaptability

Copywriting

Client communication

INTERESTS

Artificial Intelligence · Web Development
· Finance · Content Creation · Graphic Design · Sketching · Football · Travel · Cooking

PROFILE

Third-year **Applied Computer Science** student at Thomas More Geel, focused on **AI/LLM integration**, **agentic AI** and **full-stack web development**. I have trained a **convolutional neural network** in **Python**, integrated **large language models** into applications and delivered **Laravel** websites for paying clients as a **Fiverr freelancer**, and I **won a hackathon** in 2025. I use **Git** for version control and document my work so others can build on it. I work AI-first to prototype fast, and I verify everything I ship. I am looking for a challenging **AI, BI or data internship** where I can deliver real value from week one.

EDUCATION

Bachelor in Applied Computer Science

2024 – 2027 (expected)

Thomas More University of Applied Sciences · Geel, Belgium

- Coursework in **machine learning**, **web & application development**, databases and software engineering.

Intermediate in Computer Science (Higher Secondary)

2020 – 2022

Government College Township · Lahore, Pakistan

Secondary School Certificate

2019

Divisional Public School · Lahore, Pakistan

EXPERIENCE

Freelance Data Cleaning

Feb 2026 – Present

Remote · small client assignments

- Cleaned and structured client data** from forms and spreadsheets: removed duplicates, standardised formats and fixed inconsistent entries so the data is **ready to use**.

Freelance Web Developer

2019 – 2022

Fiverr · Remote, international clients

- Designed and delivered **working websites** for a **construction company** and a **catering business** using **Laravel, PHP and Tailwind CSS**.
- Handled the full cycle: **client requirements**, **Figma** mock-ups, development, copywriting, revisions and launch.

PROJECTS

Lizard Species Classifier (CNN)

University project

- Built and trained a **convolutional neural network** in **Python** to classify lizard species from images: **data preprocessing**, **model training** and **evaluation** on unseen test data.

AI / LLM Integration & Agentic AI

Ongoing

- Integrated **large language models** into applications via **APIs**: **prompt design**, structured outputs and connecting AI features to **existing workflows**. I build and configure **AI agents** and coding-agent rules.
